This volume contains the scientific papers of the Poster & Demo track of the 10th International Conference on Semantic Systems, SEMANTiCS 2014, formerly known as I-Semantics. SEMANTiCS is the annual meeting place for professionals who make semantic computing work, and understand its benefits and know its limitations. Every year, SEMANTiCS attracts information managers, IT-architects, software engineers, and researchers, from organizations ranging from NPOs, public administrations to the largest companies in the world.

The Posters & Demos Track provided an opportunity to present late-breaking research results, smaller contributions, and innovative work in progress. It gave conference attendees the possibility to learn about on-going work and encouraged discussions between researchers and practitioners in the field.

There were a total of 17 submissions of which 11 submissions have been accepted. The Program Committee of the Poster & Demo track featuring renowned international experts on a broad range of knowledge management topics carefully provided on average four explicit high quality reviews for each submitted paper. The authors of the selected papers improved their original submissions, taking into account the comments and feedback obtained from the reviews. 10 submissions have qualified for inclusion in this proceedings.

Special thanks go to all members of the Program Committee as well as to Ogarit Uhlmann and Chistiane Wolf from the F&U confirm from Leipzig for their support in organizing this event. We would also like to thank our sponsors - gold: PoolParty (Semantic Web Company GmbH), STI International, eccenca, IntraFind Software AG, LOD2 EU Project, MarkLogic and silver: OpenLink Software, Wolters Kluwer, Cognitum, DBpedia Association, Ontos, and the Geo-Know EU Project for supporting SEMANTICS 2014.

We hope that SEMANTiCS 2014 Poster & Demo track will provide you with new inspirations for your research and with opportunities for partnerships with other research groups and industrial participants.

Sincerely yours,
Harald Sack, Agata Filipowska, Jens Lehmann and Sebastian Hellmann

Programme Commitee

We would like to thank all reviewers that have helped us and especially the authors with their comments and feedback.

- Nathalie Aussenac-Gilles, IRIT Toulouse
- Andreas Blumauer, punkt.net Services
- Volha Bryl, University of Mannheim
- Roberta Cuel, University of Trento
- Aba-Sah Dadzie, University of Birmingham
- Marin Dimitrov, Ontotext
- Michael Eble, Fraunhofer IAIS
- Henrik Eriksson, Linkping University
- Anna Fensel, Semantic Technology Institute (STI) Innsbruck, University of Innsbruck
- Wolfgang Gassler, University of Innsbruck, Insitute of Computer Science, Research Group Databases and Information Systems
- Chiara Ghidini, FBK-irst
- Alain Giboin, INRIA Sophia Antipolis - Méditerranée
- Anja Jentzsch, Hasso Plattner Institut
- Efstratios Kontopoulos, CERTH-ITI
- Christoph Lange, University of Bonn
- Steffen Lohmann, University of Stuttgart
- Sandra Lovrenčić, University of Zagreb, Faculty of organization and informatics Varazdin, Pavlinska 2, HR-42000 Varazdin, Croatia
- Markus Luczak-Roesch, University of Southampton
- Dunja Mladenic, Jozef Stefan Institute
- Axel-Cyrille Ngonga Ngomo, University of Leipzig
- Lyndon Nixon, MODUL University
- Andrea Giovanni Nuzzolese, STLab, ISTC-CNR
- Leo Obrst, MITRE
- Vito Claudio Ostuni, Politecnico di Bari

- Heiko Paulheim, University of Mannheim
- Marco Rospocher, Fondazione Bruno Kessler
- Eugen Ruppert, TU Darmstadt - FG Language Technology
- Marta Sabou, MODUL University Vienna
- Muhammad Saleem, AKSW
- Bernhard Schandl, mySugr GmbH
- Pavel Shvaiko, Informatica Trentina
- Nadine Steinmetz, Hasso Plattner Institute for Software Systems Engineering
- Holger Stenzhorn, Saarland University Hospital
- Mari Carmen Suárez-Figueroa, Universidad Politécnica de Madrid
- Andreas Thalhammer, AIFB, Karlsruhe Institute of Technology
- Ruben Verborgh, Ghent University - iMinds
- Maria Esther Vidal, Universidad Simon Bolivar, Dept. Computer Science
- Boris Villazón-Terrazas, iSOCO, Intelligent Software Components
- Krzysztof Wecel, Poznan University of Economics
- Eva Zangerle, Databases and Information Systems, Department of Computer Science, University of Innsbruck
