

Preface

The iStar workshop series is dedicated to the discussion of concepts, methods, techniques, tools, and applications associated with *i** and related approaches. Following successful workshops in Trento, Italy (2001), London, England (2005), Recife, Brazil (2008), Hammamet, Tunisia (2010), Trento, Italy (2011), Valencia, Spain (2013), Thessaloniki, Greece (2014), Ottawa, Canada (2015), Beijing, China (2016), and Essen, Germany (2017), this year, the 11th International *i** Workshop (iStar'18) was held in Tallinn, Estonia. As with previous editions, the objective of the workshop was to provide a unique opportunity for researchers in the area to exchange ideas, compare notes, and forge new collaborations. This year, the workshop was in conjunction with the 30th International Conference on Advanced Information Systems Engineering (CAiSE'18), benefiting from our common themes and interests shared by the two events.

We kept the workshop format informal so as to promote and maximize interaction. Aiming at an inclusive and discussion-oriented workshop, the main criterion for paper acceptance in iStar'18 was relevance and potential for stimulating discussion and possible collaborations among the participants. A 33-member program committee, consisting of scholars and practitioners with expertise and interest in the field, were involved in reviewing a total of 10 complete paper submissions. Each of the papers was reviewed by three program committee members. Of the submitted papers, 8 were accepted for presentation in the workshop and revised versions of the papers are included in the proceedings that follow. In the event, each paper was given 30 minutes for presentation and discussion.

iStar'18 included a keynote by Prof. Oscar Pastor, from Universitat Politècnica de València, entitled **Making Software Fulfill Users Goals: From Goals to Code**. Finally, iStar'18 also included a 1h30 panel with the participation of Giancarlo Guizzardi, Oscar Pastor and Jolita Ralyte, on **iStar modelling in practice: strengthening interdisciplinary research**.

We would like to thank all the members of the Program Committee and the additional reviewers for providing their expertise and suggesting constructive advises to improve the quality of the submissions. Last but not least, we want to thank the organizers of the CAiSE 2018 conference for their valuable support.

Tallinn, June 12, 2018

Miguel Goulão, Marcela Ruiz and Angelo Susi
Program Co-Chairs
iStar'18

Program Committee

Raian Ali	Bournemouth University, UK
Daniel Amyot	University of Ottawa, Canada
João Araújo	Universidade Nova de Lisboa, Portugal
Basak Aydemir	Utrecht University, The Netherlands
Amel Bennaceur	The Open University, UK
Juan Pablo Carvallo	Universidad del Azuay, Ecuador
Jaelson Castro	Universidade Federal de Pernambuco, Brazil
Dolors Costal	Universitat Politècnica de Catalunya, Spain
Luiz Marcio Cysneiros	York University, UK
Fabiano Dalpiaz	Utrecht University, The Netherlands
Neil Ernst	Software Engineering Institute, USA
Hugo Estrada	CENIDET, Mexico
Sepideh Ghanavati	Texas Tech University, USA
Renata Guizzardi	Universidade Federal do Espirito Santo, Brazil
Jennifer Horkoff	Chalmers UT and University of Gothenburg, Sweden
Tong Li	Beijing University of Technology, China
Sotirios Liaskos	York University, UK
Lin Liu	Tsinghua University, China
James Lockerbie	City University London, UK
Lidia Lopez	Universitat Politècnica de Catalunya, Spain
Alejandro Maté	University of Alicante, Spain
Haralambos Mouratidis	University of East London, UK
Elda Paja	University of Trento, Italy
Oscar Pastor	Universitat Politècnica de Valencia, Spain
Michalis Pavlidis	University of Brighton, UK
Anna Perini	Fondazione Bruno Kessler, Italy
Alberto Siena	Delta Informatica, Italy
Vitor E. Silva Souza	Universidade Federal do Espirito Santo, Brazil
Yvesv Wautelet	Katholieke Universiteit Leuven, Belgium
Eric Yu	University of Toronto, Canada
Yijun Yu	The Open University, UK
Jelena Zdravkovic	Stockholm University, Sweden
Marc van Zee	University of Luxembourg, Luxembourg

Additional Reviewers

Jameleddine Hassine	King Fahd University of Petroleum and Minerals, Saudi Arabia
