SSI-2019

Preface

This volume contains the papers presented at the 21st Conference on Scientific Services & Internet (SSI-2019)[1] held on September 23-28, 2019 in Novorossiysk-Abrau, Russia.

SSI has been held annually since 1998 and has been published in CEUR Workshop Proceedings since 2018[2].

SSI-2019 was organized jointly by the Keldysh Institute of Applied Mathematics and Kazan Federal University as the leaders in the field of programming and information processing technologies with organization support by Southern Federal University.

The issues discussed at the conference include: national bibliographic systems, Semantic Web, on-line libraries, and information systems for geology, geochemistry, crystallography, physics of a solid body and nuclear physics. All the collected papers have been reviewed by the program committee.

The conference was attended by a wide scope of researchers from national and international science centers and was supported by the Russian Foundation for Basic Research, the project #19-07-20059.

Last but not least, we are grateful to our program and organizing committees, who made the conference possible.

January 2020

Conference co-chair,
Dr. Sc. Alexander Elizarov
