This volume represents the proceedings of the 1st International Workshop IT Project Management (ITPM 2020), held in Slavsko, Lviv region, Ukraine, in February, 2020. It comprises 26 contributed papers that were carefully peer-reviewed and selected out of 39 submissions.

It is our pleasure to present to you the proceedings of the 1st International Workshop IT Project Management (ITPM 2020). This volume represents the proceedings of the ITPM 2020 workshop's tracks, which took place in Slavsko, Lviv region, Ukraine, on February 18-20, 2020.

Workshop materials present the results of original research in the field of IT project management, including project action methodologies, project team management, project analysis from the employers' point of view, important aspects of IT specialists training, formation of emotional states of project team members, etc. The main purpose of ITPM 2020 workshop is a discussion of the recent research results within such tracks:

- Management of IT projects and programs.
- Modeling of project management processes in the IT industry.
- Forming portfolios of IT companies' projects.
- Information technologies for project and program management.
- Methods for formation of IT project teams.

The workshop was soliciting only regular papers that had to present original reports of substantive new research techniques, findings or applications and clearly indicate innovative aspects. Detailed presented research procedures or technical solutions should be accompanied by experimental investigations. The paper's results had to be new, clear and well-argued.

Submission of papers to the workshop was open to all authors from around the world within the framework of the domain area concerning IT project management.
