CEUR Workshop Proceedings

Proceedings of the Doctoral Symposium on Natural Language Processing 2024
(NLP-DS-2024)

Preamble

The Spanish Society for Natural Language Processing has organized the 7th edition of the Doctoral Symposium on Natural Language Processing held in Valladolid on September 26, 2024 as part of the [XL International Conference of the Spanish Society for Natural Language Processing](#) (SEPLN 2024).

The aim of the Doctoral Symposium is to promote scientific vocations in the field of Language Technologies and Natural Language Processing (NLP). To this end, it organizes a meeting point where PhD students in the area of NLP can present their work. Moreover, they receive constructive feedback and guidance from experienced researchers in their area of work.

In the 2024 edition, 24 PhD students participated. All participants submitted a paper describing their proposals, all of them being accepted after review by two members of the program committee and by the organizing committee.
